

DRAGONIUM

ASSOCIATION ZYZOMIS

The paladin is an Archaeologist. He can also be an Enchanter or an Archivist.

The Archaeologist collects runes.

The Enchanter uses runes to make equipment evolve (the equivalent of Isabel's floating forge).

To do this job, he needs a catalyst: a rune and a pair of glasses (the quality depends on the level of the equipment to be evolved).

The Archivist uses runes to write skill scrolls for all classes. To do this job, he needs a catalyst: a rune and a quill (the quality depends on the level of the scroll to be made).
